Subject: Please oppose Highway 413

CAUTION: EXTERNAL MAIL. DO NOT CLICK ON LINKS OR OPEN ATTACHMENTS YOU DO NOT TRUST.

To Our Regional Councillors,

I hope I am not too late to have my voice heard.

I am a parent in Brampton and have seen our green city be taken over by urban sprawl. We are a growing city and there is a need in some areas, but it has to be done responsibly.

Highway 413 is not responsible. It will only save commuters a couple of minutes at best, while destroying 400 acres of the Greenbelt, increasing greenhouse gas emissions and harming our health with more air pollution. All this with a cost to me, a taxpayer, of \$6 billion. This cost does not include the impact of poor air quality which is an increase in hospitalizations and sick days for people with breathing problems. Peel Region has declared a Climate Emergency. As such, I urge you to support a full Federal Environmental Assessment and not to begin work until we know what impact building this highway will have.

I urge you to consider my plea on behalf of my child's future.

Regards,
Audrey Partington
