Good afternoon Chair Iannicca, Peel Mayors, and Peel Region Councillors,

I am a resident of Brampton, a parent, grandparent, and a retired teacher and school administrator. I have been pleased to participate in many stakeholder consultations in Brampton and in Peel that are focused on good planning, where good decisions have been made that benefit our communities.

I write in opposition to the planned highway GTA West #413.

The destructive impacts of this highway on our communities and environment are many, in addition to the unnecessary \$6 billion dollar tax burden on our citizens.

We live in an environment already degraded by extensive urban expansion. We need to protect what remains and restore, rather than destroy, our natural areas.

The City of Brampton has consulted with experts, citizens and many stakeholders in developing a Heritage Heights Master Plan and Brampton 2040 Vision that exemplify how we build people centred, climate friendly, sustainable cities.

Region of Peel has done exemplary work in developing a Climate Change Master Plan that outlines ways we move forward safely and sustainably, and a Goods Movement Strategic Plan that outlines many efficiencies and alternatives. Taxpayer dollars are better invested in infrastructure that utilizes and enhances current roads, rail and transit within established urban areas, rather than in a 400 series highway that cuts across our communities and natural environment, bringing increased traffic and air pollution, destruction of forests, wetlands, and watersheds, and ever-increasing urban sprawl.

I urge you to oppose the #413 highway, and support a full Federal Environmental Assessment, so that no work can begin until we know all the facts about its impact.

Respectfully,

Rosemary Keenan
