**Subject:** Highway 413

Dear Majors and Councillors:

My name is Maria and I am a local resident of Mississauga who has very very deep concerns about the Highway 413 mega project that is been discussed. I am 24 years old and afraid that if the government that represents me doesn't look out for a green future, we have very little hope.

As a GTA resident I would like see the development of Green Alternatives that will bring our communities closer to zero emissions by 2030, we all need fresh air, clean water, and healthy soils for the precious organic based food of the future.

So please consider that:

- The Highway will impact the environment; e.g. it would cross rivers and water courses 85 times, it will destroy 400 acres of the Greenbelt, lead to more urban sprawl, increase greenhouse gas emissions when Peel Region has declared a Climate Emergency, harm our health with more air pollution, and cost provincial taxpayers \$6 billion.
- I am urging the council to Oppose Highway 413, and Support a full Federal Environmental Assessment, so that no works can begin until we know all the facts about what impact building this highway will have.

Thank you for your considering this letter. I pray for wisdom to do what is right not what is convenient.

With regards,

Maria del Mar Terranova Perez
