Some choose to live in an urban world. I choose to live in a rural environment and built my life around acreage located in the green belt / Oak Ridges zones. It makes me shudder to think that the distant rumble of highway traffic may invade our protected tranquil space. The loss of irreplaceable farm land to the inevitable development that will follow is unconscionable, especially in a climate change threatened world. Needless to say I strongly oppose this kind of development.

Regards:

Doug Oldham
