The message was submitted through an Automated Email Service on Peel's Website Wed Jun 23 16:45:24 2021:

Please accept my letter for June 24th's meeting. The 413 Presentation is very sloped towards what Developers want, not the public.

The 413 will be another Toll highway, inducing destruction of environmentally protected lands, wetlands and farmland. The 407 is underused and the 427 extension is still not opened. Invest in a 1 year not toll on the 407 which will be a viable study to see if gridlock will reduce on the 401. We already have enough roads, we need to reduce our carbon emissions in 9 years and the 413 only benefits truckers, developers will kill the environment and not benefit residents.

I ask the Regional Council to not act on this presentation and look a pilot of using the 407 as toll free option which is a better alternative to destroying our lands and killing our climate change targets.

Sincerely
Kathleen Wilson
Environmental and Climate Change Advocate
