The message was submitted through an Automated Email Service on Peel's Website Wed Jun 23 19:29:56 2021:

Peel Region Council,

Please receive tomorrow's presentation from MTO staff on the proposed GTA West Corridor/Highway 413 and take no further action. Any action taken by Council should provide advanced opportunity for the public to be notified and consulted. MTO staff will reiterate the need for the GTA West Corridor but have not provided any new information that would validate or substantiate this claim. Other than the involvement of the Federal Government nothing has changed or been communicated to the public since Council debated and voted to withdraw support for the GTA West Corridor.

MTO continues to advocate for a transportation model that will:

-not address traffic woes experienced by residents right now; -provide transit in areas where it is not needed nor sufficient population density planned to justify investment; -ignores the potential of the existing 407 to provide an alternative to this major infrastructure project; -is predominantly needed to provide a solution for goods movement, private interests and businesses; and, -will drive Climate Change.

Please let the MTO know that the continual focus outside of our existing communities is distracting the conversation and investment in solutions that are desperately needed in existing communities.

Thank you.

Robert Mancuso
