Subject:

We would like to express our deep concern with regard to the motion to reduce Caledon's representation on the Regional Council by two seats.

Caledon is a huge and growing area of Peel. We may have a smaller population than Brampton and Mississauga, but our population is growing and we feel that having 1/5 representation on this Council should not be reduced. We feel that we would not be fairly represented if this number is reduced.

Please consider this.

30-year residents of Caledon
