Subject: Fwd: Reducing Caledon number of Regional Counselors.

RECEIVED
December 10, 2020
REGION OF PEEL
OFFICE OF THE REGIONAL CLERK

Reducing Caledon's number of Regional Counselors.

Caledon is the largest part of the region of Peel by far. The plans call for a very large increase in its population. Caledon is an agricultural community that has to face many problems that are quite different than the rest of the Peel region. Caledon needs to retain its conservation areas, its current farming community and should remain a strong advocate for climate change. For all these reasons and many others, we need to retain the right to have a say in our community with adequate representation in the region of Peel. Do not reduce our representation. We all need fair representation. Thank you.
Bernie
