

Concerns & Implications Regarding Covid-19 Measures & Mandatory Vaccination

MAIN ISSUES

- Human rights and freedom to choose what medical interventions one takes, without any coercion and threats, matters. This is the basics of free informed consent and a just society.
- Threatening one's employment or ability to participate in society because of their medical choices is not reasonable, evidence-based, or ethically justified. This is coercion and violation.
- Can you imagine for a moment – if your whole family had to lose their livelihood, their ability to earn food and shelter and feed their children, over an injection?
- Mandating divisive policies
- Multiple conflicts of interest

Concerns & Implications Regarding Covid-19 Measures & Mandatory Vaccination

BIG PHARMA

- Senior Pfizer scientist said “I feel like I work for an evil corporation because it comes down to profits in the end. Basically our organization is run on Covid money now. You have multiple companies that were given a crap tonne of money to produce vaccines & they’re pushing them. You don’t talk about anything that can possibly implicate you or Big pharma. They’re trying to get their numbers.”
- A J&J scientist said “the only way people act and comply is if it impacts their pockets. If you can’t work, I feel like that’s punishment enough. You’ve just got to keep doing things like that to where it’s almost like you’re a second-grade citizen. You can’t do anything that a normal citizen can do.”
- THIS IS EXACTLY HOW OUR FELLOW HUMANS ARE BEING TREATED.

Concerns & Implications Regarding Covid-19 Measures & Mandatory Vaccination

ADDITIONAL CONSIDERATIONS

- On September 27 2021, over 5,200 doctors and scientists signed the Physicians Declaration, condemning policy makers for authoritarian approaches of forcing a “one-size-fits-all” COVID treatment strategy which is resulting in “needless illness and death.” They declared covid protocols to be crimes against humanity.
- As human beings, we are meant to socialize, love, care, and create a beautiful peaceful world for ALL.
- People are not vaccine hesitant or misinformed because they do not follow the majority. NO. Many people are informed and reflective, and respect everyone's right to choose. My body my choice.

QUESTIONS FOR YOU

- Stand for basic rights of the people to work, earn, participate in society, and freely make their own medical choices. That is what you were elected to do. Will you do the right thing?
- What is your response to all these important and detailed points made? Please do not simply dismiss and gloss over them. Listen to the concerns of the people. Stop the excessive fear-mongering. Stop supporting oppressive measures. Stand up for the right to choose and to respect everyone's medical decisions. THIS IS TRUE PUBLIC HEALTH.
