Delegation to the Peel Regional Planning and Growth Committee

Tess Prendergast - NDP Candidate Dufferin-Caledon

Items for consideration

- Consider Other Options to meet Ministry Guidelines
- 2. Impact on Quality of Life on Residents
- 3. Municipality/Provincial Issues
- 4. What are our Regional Priorities?
- 5. Delay the Decision on the Urban Boundary Expansion until after the Provincial Election

Consider other Options to meet Ministry Guidelines

- Make room for growth in existing high density areas in Peel through intensification, focusing on the missing middle.
- Build in existing designated greenfield areas in municipalities.
- After those options are exhausted, unlock farmland in Brampton and Peel, as necessary with affordability in mind.

Impact on Quality of Life of Residents

- Sprawl will create a huge load on regional infrastructure, driving municipal taxes up.
- Increased air and noise pollution for residents.
- Over 194,250 truckloads of aggregate will be needed to build Hwy 413 where is this coming from, which rural roads will these heavy vehicles be driving down?
- Municipalities will bare the brunt of costs associated with the highway/growth project.
- Highway 50 and Mayfield have been a growing area of concern for increased truck traffic - Highway/aggregate.
- Will this give the provincial government further agency to approve MORE gravel pits in north Caledon and Dufferin County?

Municipal/Provincial Issues

- We need to push back on the growth plan for the Greater Golden Horseshoe why are the rural outskirts expected to absorb a huge influx of population when arguably we have the least amount of existing infrastructure and services?
- Province must fund sustainable growth in established urban areas with higher density and closer access to municipal services.

What are Our Regional Priorities?

- Are we creating homes that people can afford? The average detached home in Caledon sells for over 2 million dollars.
- The proposed e-commerce warehouses will employ people in minimum wage positions, who will not be able to afford the newly built homes in Caledon, but will be commuting to Caledon.
- Alternative options to food security Ontario Agri-food sector makes 47.3 billion in annual GDP and employs over 860,000 people
- The pandemic taught us the global supply chain has its stressors can Peel work towards regional community farming benefiting the most vulnerable without sacrificing food security?

Delay the Decision on the Urban Boundary Expansion until after the Provincial Election

- Consider waiting until after the election on June 2nd to decide on this monumental matter You have a July 1st deadline.
- Is this the best plan for the future of Peel?
- The vulnerable people of Peel?
- The environment?
