

## EV Charging Station Operating Costs

Operating costs for the Region's charging stations can be categorized as follows:

- **Preventative Maintenance:** Level 3 preventative maintenance is mandatory at \$910+HST per station per year. Level 2 preventative maintenance is recommended and estimated at \$360+HST per site per year.
- **Electricity:** Approximately \$0.91 to \$1.06 per hour for Level 2 charging, and \$7.40 per hour of Level 3 charging at max power outputs.
- **Annual EV Service Provider Dues:** \$150+HST per Level 2 connector, \$750+HST per Level 3 station
- **Transaction Fees:** 15 per cent of net revenues collected by the EV Service Provider.
- **Repair Costs (*Ad-hoc*):** In March 2022, a charging cable was damaged and replaced on 7120 Hurontario's Level 3 station. The repair cost \$2,789.50+HST.
