

## Motion

**Agenda Number:** 20.2  
**Date:** May 11, 2022

---

**Moved by** Councillor Russo  
**Seconded by** Councillor

Whereas the Province of Ontario has committed to building 1.5 million new homes by 2031;

And whereas, Ontario's Ministry of Municipal Affairs and Housing (MMAH), assigned housing targets to 29 municipalities as part of Bill 23, *More Homes Built Faster Act*;

And whereas, the housing pledges from the Town of Caledon, City of Brampton and City of Mississauga commit to building over 250,000 new homes by 2031;

And whereas, Peel Regional Council has acknowledged the Province's Housing goals, however, fulfilling this requires the availability of servicing capacity;

And whereas, at the February 23, 2023 Regional Council meeting, staff provided a presentation related to Infrastructure Planning to Support Bill 23 Housing Targets;

And whereas, significant investments in infrastructure will be required to realize the necessary servicing capacity for the housing pledges and the planned growth in Peel to 2031 and beyond to 2051;

And whereas, water and wastewater servicing capacity (conveyance and treatment) in the Peel Region's trunk and treatment systems are currently limited based on the current Master Plan and will only be increased incrementally through the development of the new Master Plan stemming from the recently adopted Peel Regional Official Plan;

And whereas, Peel Region currently confirms that servicing capacity is available as development applications are approved and allocated until such time that construction occurs;

And whereas, there is existing service capacity allocated for approved development, but construction has not commenced nor building permits obtained;

And whereas, capacity should be allocated to development applications where developers commit to immediately move forward with construction;

And whereas, Regional Council discussed, and asked questions related to the presentation, including a discussion on advocacy to the provincial government to allow local municipalities to implement a sunset clause to encourage development to proceed;

And whereas, on March 9, 2023, Regional staff brought forward a report on "Infrastructure Planning and Requests of the Province to Support Bill 23 Housing Targets" which states in Appendix III, "It is recommended that the Province provide municipalities with the authority to implement a sunset clause for site-specific approvals to require that a building permit be issued within a certain time frame after receiving the necessary planning and development approvals";

And whereas, this request to the Province on the ability to utilize sunset clauses was included in the local municipal Housing Pledges submitted to the Province under "Joint Regional and Local Municipal Request for Provincial Commitments to Support Housing Pledges";

And whereas, the local municipality is the approval authority on development applications and the Region of Peel is responsible for providing the required water and wastewater infrastructure;

Therefore, be it resolved:

1. That Regional Staff, in collaboration with staff of the Town of Caledon, City of Brampton and City of Mississauga, develop a detailed process on available servicing capacity, supplemental to the “green maps” included in the Infrastructure Planning to Support Bill 23 Housing Targets presentation by Regional staff on February 23, 2023 (with the objective to clarify where development and its associated servicing has been allocated and/or approved for development but Building Permits have not been issued); and
2. That Regional staff be directed to bring forward a report outlining the process noted above at its earliest possible time; and
3. That Regional staff be directed to work with the staff of the Town of Caledon, City of Brampton and City of Mississauga to develop a Regional approach to managing the assignment of servicing capacity to the local municipalities for allocation to approved development applications, including the authority required to implement sunset clauses and the recommended timeframes, policies, procedures to rescind, suspend and/or hold development approvals, which have not proceeded to obtain building permits; and
4. That a copy of this motion be forwarded to the Minister of Municipal Affairs and Housing, Town of Caledon, City of Brampton, and City of Mississauga.
