Dear Premier, Peel Regional Council, Brampton Council and Mayor Tory,

Be advised:

REFERRAL TO _____
RECOMMENDED _____
DIRECTION REQUIRED _____
RECEIPT RECOMMENDED _____

1. **Canada's National Research Council now joins the growing list of institutions indicating via FOI response that they have no records containing evidence that "the deadly SARS-COV-2 coronavirus" blamed for "COVID-19" has been isolated from a patient sample by anyone, ever, anywhere on the planet.**

See attached.

Once again, isolation (not just from 1 diseased patient, but many) is just one of the basic steps needed to establish **scientifically** that a new virus is the cause of any illness whatsoever.

2. **People can't breathe properly when wearing a mask.**

Mandating masks means mandating impaired breathing. Impaired breathing leads to impaired health.

3. **Bylaws based on fraud are not legitimate laws.**

PART 10 – GENERAL

23. In the event of conflict, the specific conflicting provision of this By-law will be of no force and effect to the extent that it conflicts with:

(1) an Emergency Orders, and for greater certainty nothing in this By-law shall be construed as permitting the opening or access to a Public Establishment that is not permitted or restricted by an Emergency Orders;

(2) any statute, regulation, rule, by-law, order or instrument of the Province of Ontario or the Government of Canada; or

(3) a by-law enacted by the Region.

24. Words importing the singular number shall include the plural, and words importing the masculine gender shall include the feminine, and the converse of the foregoing also applies, unless the context of the By-law otherwise requires.

25. Should a court of competent jurisdiction declare any part or provision of this By-law to be invalid or of no force and effect, it is the intention of Council in enacting this By-law that the remainder of its provisions remain valid and binding, and that it be applied and enforced in accordance with its terms to the fullest extent possible according to law.

[REDACTED]

Dear Christine Massey:

This letter is in response to the request you made to the National Research Council (NRC) under the *Access to Information Act* for records pertaining to:

“All records in the possession, custody or control of the National Research Council of Canada (NRC) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; liver cancer cells).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- ***the culturing of something, or***
- ***the performance of an amplification test (i.e. a PCR test), or***
- ***the sequencing of something.***

Please also note that my request is not limited to records that were authored by the NRC or that pertain to work done by the NRC. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that the NRC has downloaded or printed.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).”

Your request was received by the NRC on June 13, 2020, and your application fee was received and processed on June 19, 2020.

A thorough search of NRC's records has now been completed, and we regret to inform you that no records responsive to your request were identified.

Please note that in the processing of your request, NRC's Access to Information and Privacy (ATIP) Office confirmed that it was not possible to generate a list of publications as specified within the above-cited text. Specific details regarding access to publications by NRC researchers have not been centrally documented by NRC's Human Health Therapeutics Research Centre, nor by the Library team responsible for NRC's electronic collections and journal subscriptions.

If you are not satisfied with this response, you are entitled to file a complaint with the Information Commissioner of Canada within 60 days (<https://www.oic-ci.gc.ca/en/submitting-complaint>) after the day on which you will have received this letter.

Yours sincerely,

2020-07-14

 Maria Krioutchkova
