Hello M. Massey,

In determining whether to transfer the request, the University of Toronto would have searched for and identified any responsive records. No responsive records were identified by them. A search by Sunnybrook also did not identify any responsive information. In summary, neither Sunnybrook nor the University of Toronto identified any responsive records.

Please contact me if you wish to discuss.

Sincerely,

Jeffrey Cutler, LL.B., CIPP/C

Dear Premier, Peel Regional Council, Brampton Council and Mayor Tory,

Be advised:

1. Recall that researchers from the University of Toronto [claimed](#) months ago to have "isolated SARS-COV-2" as part of a team effort with researchers from Sunnybrook Research Institute, McMaster University and Mount Sinai Hospital. Press releases [heralded](#) "the accomplishment".

The University of Toronto is a long-time "proud partner" with the vaccine manufacturing company Sanofi Pasteur, and has been involved in developing "COVID-19" tests and vaccines (\$\$).

The University of Toronto now joins the growing list of institutions indicating via FOI response (in this case handled by Sunnybrook Health Sciences Centre) that they have no records containing evidence that "the deadly SARS-COV-2 coronavirus" blamed for "COVID-19" has been isolated from any patient sample, by anyone, ever, anywhere on the planet.

See attached.

Once again, isolation (not just from 1 diseased patient, but many) is just one of the basic steps needed to establish **scientifically** that a new virus is the cause of any illness whatsoever.

2. People can't breathe properly when wearing a mask.

Mandating masks means mandating impaired breathing. Impaired breathing leads to impaired health via lowered oxygen, increased carbon dioxide, cortisol, etc.

3. Bylaws based on fraud are not legitimate laws.

PART 10 – GENERAL

23. In the event of conflict, the specific conflicting provision of this By-law will be of no force and effect to the extent that it conflicts with:
 - (1) an Emergency Orders, and for greater certainty nothing in this By-law shall be construed as permitting the opening or access to a Public Establishment that is not permitted or restricted by an Emergency Orders;
 - (2) any statute, regulation, rule, by-law, order or instrument of the Province of Ontario or the Government of Canada; or
 - (3) a by-law enacted by the Region.
24. Words importing the singular number shall include the plural, and words importing the masculine gender shall include the feminine, and the converse of the foregoing also applies, unless the context of the By-law otherwise requires.
25. Should a court of competent jurisdiction declare any part or provision of this By-law to be invalid or of no force and effect, it is the intention of Council in enacting this By-law that the remainder of its provisions remain valid and binding, and that it be applied and enforced in accordance with its terms to the fullest extent possible according to law.

Christine Massey, M.Sc.
