

**Motion**

**Agenda Number:** 20.1

**Date:** November 13, 2025

---

**Moved by** **Councillor Medeiros**

**Seconded by** **Councillor Vicente**

Whereas currently the intersection of Queen Street West and Royal West Drive is unsignalized;

And whereas, residents have requested traffic control signals due to safety concerns and difficulty exiting and accessing Royal West Drive;

And whereas, the intersection of Queen Street West and Royal West Drive is currently not warranted for traffic control signals;

And whereas, subdivision application 21T-20011Ba is located on the south side of Queen Street and conditions of approval require the Developers to construct intersection improvements at the Developer's Expense, including Traffic Control Signals;

And whereas, the timing of construction for the subdivision application 21T-20011Ba, intersection improvements, and traffic control signals is unknown, but will be no earlier than 2026;

Now therefore be it resolved, that staff investigate the options for installing temporary traffic control signals in advance of the subdivision application 21T-20011Ba works.
